

FOREWORD

This repair manual has been prepared to provide information on the repair methods (including cutting and welding operations, but excluding painting) for collision-damaged body components of the TOYOTA CELICA..

Applicable models: AT 180
 ST182,184,185 series

This manual consists of body repair methods, exploded diagrams and illustrations of the body components and other information relating to body panel replacement such as handling precautions, etc. However, it should be noted that the front fenders of the TOYOTA models are bolted on and require no welding.

Body construction will sometimes differ depending on specifications and country of destination. Therefore, please keep in mind that the information contained herein is based on vehicles for general destinations.

For the repair procedures and specifications other than collision-damaged body components of the TOYOTA CELICA refer to the following repair manuals.

Manual Name	Pub. No.
• Celica Repair Manual (USA and CANADA) • Celica Chassis and Body Repair Manual (Models except USA and CANADA) • Celica Electrical Wiring Diagram Manual (USA and CANADA (Models except USA and CANADA)	M/Y Version RM 155E
• Fundamental Painting Procedures • Fundamental Body Repair Procedures	M/Y Version EWD 077Y 36438E BRM002E

If you require the above manuals, please contact your TOYOTA Dealer.

All information contained in this manual is the most up-to-date at the time of publication. However, specifications and procedures are subject to change without prior notice.
