

Collision Repair Information Bulletin

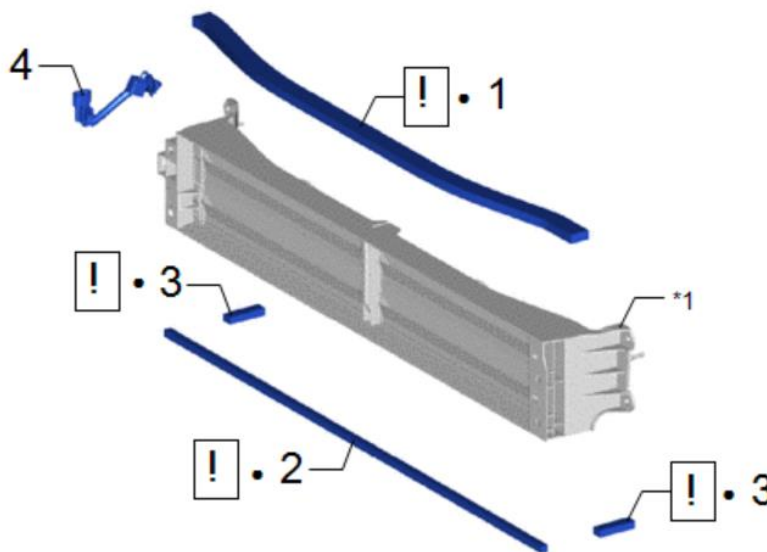

FOR THE COLLISION REPAIR PROFESSIONAL

TITLE:	Non-Reusable Parts	Bulletin #188
SECTION:	Interior/Exterior	
APPLICABLE VEHICLES:	All	
DATE:	Revised August 2023	

Revision History

August 2023: Document formatting and content updated.

Toyota and Lexus Repair Manuals provide “Component” illustrations which can be used to identify “Non-Reusable Parts,” such as in the example illustration below. There are a wide variety of parts identified as non-reusable, and include but are not limited to: Glass, Trim, Fasteners, Gaskets, Emblems, Clips, Grommets, Garnishes, Decals, etc. Toyota non-reusable parts are designed to be installed only once. **If removed, they must be replaced and not reused.**

*1	RADIATOR SHUTTER
•	Non-reusable part
